

# AFFORDABLE CORE BANKING SOLUTION

---

*BankSoft SaaS*

# CORE BANKING SOLUTION

BankSoft - Core Banking Solution is a comprehensive solution aimed at meeting the requirements of the financial institutions. Built on latest technology platform, the solution offers unparalleled scalability and security to banks.

BankSoft Core Banking solution has been stress tested at IBM Innovation Labs and proved to be highly scalable to meet the largest transaction processing requirements of the banks. The solution has more than 300 in-built MIS reports to enable banks to manage their operations better and efficient.

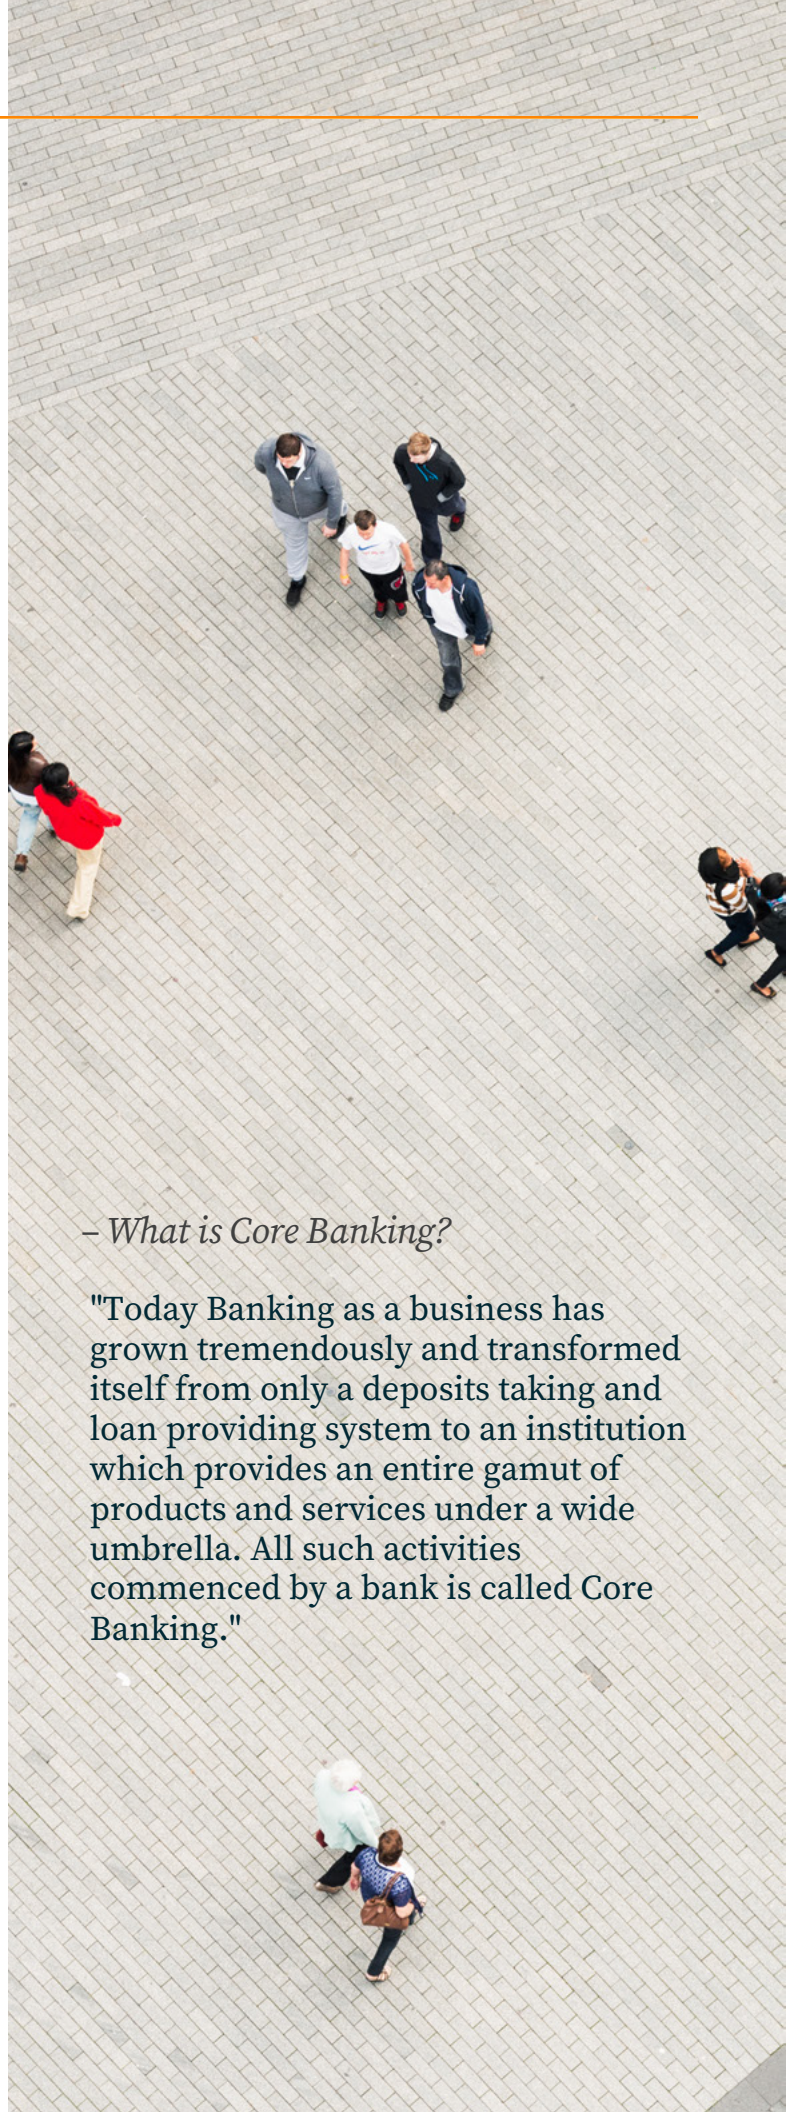

Core Banking Solution enables the banks to provide many additional delivery channels to their customers. The solution can be installed on-premise or used on the cloud. The solution has one of the easiest user interfaces to enable end users to learn the software quickly with minimal training.
